TOOLS AND SUPPORT FOR YOUR CHILD AND FAMILY

Right Start for Families utilizes the Parents as Teachers curriculum to provide parents with the educational tools necessary for supporting their child's early development and for family well-being. The program provides one-on-one home visits with a supporting Parent Educator as well as family supportive monthly group meetings.

Right Start works with at risk families and provides parents with fun, educational and family engaging activities that promote early learning for children from birth to age three and resources that strengthen family social connections.

- Twice monthly home visits with supportive parent educator
- Parent and child early learning activities
- Nutrition education
- Monthly family group meetings
- Educational outing for parents and children
- Resource referrals
